

# Association of Jewish Aging

---

of North America

## Board of Directors

### Chairman

LEE OLITZKY  
Tucson, AZ

### Chairman-Elect

ELI FELDMAN  
Brooklyn, NY

### Immediate Past Chairman

MICHAEL ELLENTUCK  
Dallas, TX

### Secretary

MARTY STEIN  
Milwaukee, WI

### Treasurer

BRYAN MESH  
Virginia Beach, VA

### Vice-Chairpersons

HARVEY FINKELSTEIN  
Rochester, NY

MARSHA GOLDSMITH  
KAMIN

Oak Park, MI

WARREN SLAVIN

Rockville, MD

AUDREY WEINER

New York, NY

Vice-Chairwoman (Ex-  
Officio)

LYNNE WEISS

Fairfield, CT

### Executive Director

HARVEY TILLIPMAN  
Washington, DC

### 2001-2004

STEPHEN HERBERT

Toronto, ON

MICHAEL KLEIN

St. Louis Park, MN

CAROL ROSENBERG

West Bloomfield, MI

ALAN ROSENFELD

Longmeadow, MA

RICHARD SCHWALBERG

Beachwood, OH

MICHAEL SILVERMAN

Omaha, NE

### 2002-2005

MICHAEL BRODIE

Miami, FL

ARTHUR COHN

Dayton, OH

ELLEN FEINGOLD

Brighton, MA

BARBRA GOLD

Montreal, QC

LEON LEVY

Cherry Hill, NJ

DAVID ROSEN

Columbus, OH

### 2003-2006

LEN FISHMAN

Boston, MA

MOLLY FORREST

Reseda, CA

MARSHALL GOLDBERG

Elizabeth, NJ

DAVID ROSS

Cherry Hill, NJ

DANIEL RUTH

San Francisco, CA

### Emeritus

DR. HERBERT SHORE  
Of Blessed Memory

April 8, 2004

## VIA ELECTRONIC FILING

Marlene H. Dortch, Secretary  
Federal Communications Commission  
445 Twelfth Street, S.W.  
Washington, D.C. 20554

Re: WT Docket No. 02-55

Dear Chairman Powell:

The Association of Jewish Aging Services is concerned about public safety especially insofar as it impacts senior citizens. On behalf our membership, we urge your agency to immediately address and resolve a serious issue that poses a threat to public safety and security in our nation: radio interference in the 800 MHz spectrum band.

First responders place their lives on the line everyday, responding to fires, floods and matters of homeland security. Their ability to arrive quickly to crises is especially critical to seniors who rely more heavily on emergency services. But first responders' timely arrival is contingent upon having reliable and clear communications. Unfortunately, this is not always the case, as reports of public safety radio interference are dramatically on the rise.

As you know, the fundamental cause of this interference is the close proximity and incompatibility of public safety, private wireless, and commercial wireless operations within the 800 MHz band of radio spectrum. Public safety communications is affected significantly since most of their communications infrastructure operates within the 800 MHz band. This is of grave concern to elderly Americans because we must rely heavily on first responders in the face of medical emergencies.

The plan pending before the FCC that would rearrange first responders' and commercial wireless' radio frequencies without any costs to taxpayers is our best chance to solve the issue of interference while enhancing public safety and addressing the concerns of senior citizens.

This plan, known as the Consensus Plan, moves proactively to solve public safety radio interference from commercial systems and also provides public safety with additional 800 MHz spectrum, thus reducing congestion.

We have reviewed other plans but because of their reactive approach to interference, we cannot support them. Lives are at stake when communications are garbled during medical emergencies, accidents, and other tragedies.

Inaction threatens the safety of our members, their families, our nation's first responders, and all Americans. Now is the time for decisive action. Anything less endangers us all.

Thank you for your consideration.

Sincerely,

**Harvey Tillipman**  
Executive Director
